

Congratulations to Hamilford Design who have been shortlisted for Residential £5 Million Plus (Project by Value) Award

design et al are delighted to announce that Hamilford Design have been shortlisted for Residential £5 Million Plus (Project by Value) Award in The International Design and Architecture Awards 2016

This project was for a client with their family in mind. Hamilford Designs had to find a balance between a timeless look, luxurious design and child friendly.

The client wanted the interior to have a hotel feel with dark and sultry colours flowing through the décor.

The designers felt like they managed to retain the luxe feel without having the house be too fragile around the children.
